International Conservation Grants

Funding Provider Zoos Victoria	Eligible to <input checked="" type="checkbox"/> Local Govt <input checked="" type="checkbox"/> State Govt <input checked="" type="checkbox"/> Business <input checked="" type="checkbox"/> University <input checked="" type="checkbox"/> Not-for-Profit <input checked="" type="checkbox"/> Unincorporated Assoc <input checked="" type="checkbox"/> School <input checked="" type="checkbox"/> TAFE	Funding \$20,000 Total Pool: \$80,000 Rounds Closes 30 Sep 2019 Last Round Closed 30 Sep 2018
Location Aus		
Funding Type Cash Grant G08711		
Primary Category Animal Welfare		

Purpose

The International Conservation Grants target projects that focus on alleviating community-driven threats to wildlife.

Overview

The project must result in measurable outcomes for wildlife, as a result of specific community action(s). The target audience (people) can be an in situ community or a community not located in the immediate locale of the wildlife. Zoos Victoria defines an in situ community as a community of local people who are directly impacted by, or directly impact a project.

The total funding pool for this round is \$80,000, with a maximum of \$20,000 per project available.

Priority

Preference may be given to projects that focus on species (including closely related species) which are in Zoos Victoria's animal collection.

Example

Two project examples are listed below:

1. **Threat:** an in situ community in Madagascar is cutting down trees for kitchen firewood, resulting in deforestation and less habitat for lemurs; and a consequent decrease in lemur numbers. **Behaviour change action:** local communities make fuel briquettes and fuel efficient stoves. **Measurable outcome related to people (measure of behaviour uptake), e.g.** number of women using briquettes and stoves; related benefits such as income generation from sale of stoves, and increase in skills from producing own stoves. **Measurable outcome for wildlife:** decrease in amount of firewood being extracted from forest (threat reduction); increase in number of lemurs in the forest.
2. **Threat:** an Australian community has an increasing consumption of mobile phones, which leads to increase in demand for coltan (high level conductor found in many electronic devices) in gorilla habitat. This threatens gorilla populations. **Behaviour Change Action:** Recycle your mobile phone. **Measurable outcome related to people (measure of behaviour uptake), ie.** number of phones donated for recycling. **Measurable outcome for wildlife:** decrease in amount of coltan extracted from gorilla habitat. Increase in number of gorillas in coltan mining areas.

Limitations

Selection Criteria:

- Wildlife impact must be located outside Australia. However, the target audience for the behaviour change may be located within Australia, or within the locale of the wildlife.
- Projects need to demonstrate how they are facilitating community action and/or changing behaviour in their target audience in order to alleviate threats to wildlife.
- Measurable outcomes for people and wildlife must be tangible/measurable targets, not just an “increase”. In many cases this requires projects to have baseline data to measure success against. Measurable reductions in threat are also valid measures of success.
- Projects with a conservation education focus must demonstrate tangible outcomes for wildlife - raising awareness/knowledge alone does not change behaviour.
- Project timeline must not exceed 12 months. However, Zoos Victoria recognises that some measures of success take longer than 12 months to eventuate. Please state goals of 12 month funding in the context of the project's long-term success.
- Projects that include reintroduction or relocation processes must be endorsed by relevant government bodies.
- Project must ensure that the welfare of animals in the wild is paramount and in accordance with governing welfare agencies.
- If the budget includes salaries, Zoos Victoria will only support these for local/national organisation staff (not expatriate staff).
- Salaries must not exceed 40% of the funding requested from Zoos Victoria.

Location Aus		Rounds Opens 4 Nov 2019 Closes 22 Nov 2019
Funding Type Cash Grant G07090		Last Round Closed 29 Jan 2019
Primary Category Arts & Culture		

Purpose

Through our Arts program area we aim to help build the calibre and capacity of Australia's arts organisations and support them to raise the bar of aspiration and achievement in the sector. We seek to foster appreciation of the arts and to develop opportunities for greater access to the arts, particularly in rural and regional areas.

Overview

A dynamic and well-resourced arts sector is central to a culturally rich, vibrant and innovative society. The Foundation is interested in enhancing the calibre and capacity of the arts sector and supporting excellent organisations to raise the bar of aspiration and achievement.

Objectives:

- To support first-rate artistic institutions and organisations in metropolitan and regional Australia which are distinctive in artistic achievement, imagination and innovation in fostering development across a sector or art form.
- To support such institutions to host artists in high-calibre professional development and/or leadership opportunities of at least 12 months (e.g. fellowships, apprenticeships, mentorships, internships).

Proposals that are collaborative and/or share knowledge with the broader sector are encouraged. In general, the recommended minimum grant amount for institutions and organisations is \$100,000 and these are usually considered as multi-year grants. We encourage all organisations to apply regardless of their size; in the case of smaller organisations, the award can be for small amounts over multiple years.

The Ian Potter Foundation rarely awards the full amount of any project. It provides travel support of up to \$15,000 for artists and their manager for tours in Australia that include performances in regional and remote areas.

Overview

Under the CMTF performances of original Australian contemporary music can include a wide range of different musical styles.

Applications must contain one tour only. The tour must comprise of performances in at least three venues outside of the performer's hometown and must include at least one performance in a non-metropolitan area.

Where over 75% of your itinerary is to remote and/or very remote locations, you are entitled to request additional funding of up to \$15,000, to a maximum total grant request of \$30,000. The Accessibility/Remoteness Index of Australia (ARIA) helps determine the regional and remote reach of the tour.

Joint tours, where two or more independent performers are undertaking the same tour itinerary, are eligible under this program. These should be submitted as a single application. In such cases, the funding cap of \$15,000 still applies (unless the tour is eligible for additional remote or very remote funding).

We encourage the inclusion of additional activities which extend opportunities for community participation, such as workshops, master classes and all-age performances.

The Australia Council offers two grant rounds each year for the Contemporary Music Touring Program.

In 2018, the grant rounds will close on:

- Tuesday 6 February for projects starting after 1 May 2018. This grant round has now closed.
- Tuesday 2 October for projects starting 1 January 2019

Each round closes at midnight on the closing date. Technical and administrative support will not be available after 5pm on the closing date.

Applicants will be notified of the outcome of their application approximately 12 weeks after the closing date.

Priority

Tours that include a majority of regional destinations or assist performers from regional areas are a priority for funding.

Limitations

Who can apply

Funding on a tour by tour basis is available to enable professional musicians to tour live music performances within Australia. Touring musicians must be performing original Australian contemporary music. Funding can be provided to performers, managers, agents, and music networks on behalf of professionals working in the Australian music industry.

Who can't apply

You can't apply for a grant if:

- you received a grant, or administered a grant, from the Australia Council in the past and that grant has not been satisfactorily acquitted

Performers' Trust Foundation

Funding Provider Phonographic Performance Company of Australia (PPCA)	Eligible to ✔ Not-for-Profit ✔ Individual	Funding Amount: \$3,000 to \$5,000 Total Pool: Undisclosed
Location Aus		Rounds Ongoing
Funding Type Cash Grant G04944		
Primary Category Arts & Culture		

Purpose

Established in 1975, the PPCA Performers' Trust Foundation provides grants to promote and encourage music and the music-related performing arts.

Overview

The grants provided are non-recurring (i.e. one-off grants rather than a periodical payment) and are determined by the four trustees of the trust.

- Two (including the Chairman) are appointed by the PPCA;
- One is appointed by the Musicians' Union of Australia;
- One is appointed by the Media Entertainment and Arts Alliance (formerly Actors' Equity).

All applications for grants are reviewed by the trustees and must be for **one or more** of the following purposes:

- performances at concerts at or for charitable institutions such as hospitals or homes for the aged
- scholarships for the promotion and encouragement of musical and theatrical education
- the promotion and encouragement of the performing arts to the general public
- the aid or assistance of any beneficiary who is unable to adequately maintain herself/himself by her/his own exertions and other income.

A grant under the PPCA Performers' Trust Foundation can be used for costs associated with the above, including:

- Tuition fees
- Travel costs (hire, airfares, petrol)
- Accommodation
- Venue hire/ PA hire.

There is no specified limit to how much you can apply for. However, funds are finite and there is no guarantee that you will receive all or any of the funds you request.

It is unusual for grants to be approved in excess of :

- \$3,000 for an individual; or
- \$5,000 for a group or organisation

Limitations

A grant cannot be used to cover wages, salaries, commissions etc.

Although the trust is discretionary, the trustees are guided by the 'purposes' articulated in the trust deed. As a result, it is not their usual practice to approve funding for any project of a commercial nature. This would include:

- investments in recordings (e.g., studio time, producers fees, session musician fees, manufacturing or distribution costs);
- concert or festival promotion or staging costs;
- tour support;
- artist management expenses; or
- equipment purchases.

You should also note that the trustees are unlikely to approve applications seeking funding for the majority of costs related to a project, and look to applicants to contribute and/or explore additional funding sources.

Project Development Investment

Funding Provider Australian Children's Television Foundation	Eligible to ✓ Not-for-Profit ✓ Individual	Funding Amount: Undisclosed Total Pool: Undisclosed
Location Aus		Rounds Closes 14 Oct 2019
Funding Type Cash Grant G01843		Last Round Closed 29 Jul 2019
Primary Category Arts & Culture		

Purpose

The Australian Children's Television Foundation (ACTF) is a national, non profit organisation. It aims to provide Australian children with entertaining media made especially for them, which makes an enduring contribution to their cultural and educational experience. Australian children deserve to see local stories and their culture on their screens.

Overview

By helping these people develop new children's programs, we remain true to our goal of creating programs that children, parents and educators can rely on to be engaging, entertaining, accessible, creative and innovative.

Before we provide funding, we assess the project against a range of criteria, including:

- The originality and quality of the story
- The experience of the team behind it
- Its potential to engage with young audiences.

Although overall quality is our primary consideration in assessing a project, we also seek to encourage:

- Diverse stories, voices and faces
- An Australian voice and point of view
- Innovative use of new and emerging media platforms
- Bringing new and emerging producers to the industry, while harnessing the skills of experienced producers
- Works that address gaps in content/genre/age groups.

In every project we provide funding for, we ensure that it is produced to the highest standards. We do this by including creative input and regular consultation as a condition of our investment.

What we look for:

Audience

All projects must primarily target the Australian child audience and must, in our opinion, be likely to be of interest to Australian children.

Television projects should be aiming for either 'P' or 'C' classification as defined by ACMA for the commercial networks and Pay TV, or a G classification for ABC.

Feature film projects should be aiming for a 'G' or 'PG' rating from the OFLC Classifications Board.

For information on what constitutes a 'P', 'C' or 'G' or 'PG' program, have a look at the ACTF's FAQs.

Subject matter

Projects may be based on an original idea, or adaptations of a novel or other work. We look for originality and new ideas not already in the marketplace or currently on television.

If the project is an adaptation of someone else's work (such as a novel, play, character or concept developed by one of the team), the applicant must obtain, or at least option, an assignment of all the necessary rights from the creator prior to making an application.

Options should have a reasonable length of time to run following any ACTF Development Funding approval to allow for the project's development, commissioning and financing.

Copies of all contractual documentation demonstrating that the applicant has obtained the necessary legal rights to deal with the material on which the project is based must accompany the application. If such options or chain of title documents are not provided with the application, the project will not be considered in that round.

Any project containing indigenous content, themes or story lines must be accompanied by written permission from the relevant indigenous community authorising the Applicant's use of such material.

Format and genre

We provide funding for television series, one-off television programs, telemovies and feature films.

Before submitting an application for a television program, it is useful to familiarise yourself with the types of formats, series lengths and episode lengths broadcasters usually commission for your intended audience's age group.

Before submitting an application for development of a feature film it is worthwhile speaking with local distributors about their requirements in this area and their interest in the genre and age group.

Finance is open to all genres, but preference will be given to drama content which typically has higher development requirements than other genres.

Levels of Development funding

We will only fund one stage of development on any project at a time. To develop a feel for the levels of funding and stages of development that we have previously funded, please look at the funding section of the ACTF website.

Projects with an offer of matched development funding from a broadcaster, distributor, coproducer or state agency will assist an application.

Applicant and Creative Team

We will consider the experience of the creative team when assessing projects for funding. Whilst it does not require that all of the proposed team have experience in their relevant area, projects with a strong and experienced creative team are preferred.

Priority

Projects with an offer of matched development funding from a broadcaster, distributor, coproducer or state agency will assist an application.

Limitations

Eligibility

Applicants should permanently reside in Australia or be Australian citizens. If the applicant is a company, it should be incorporated in Australia and have Australian-based management and control. We may require a personal company director's guarantee when contracting with companies.

We require all applicants to provide an Australian Business Number (ABN).

The nominated organisation must be a not-for profit community-based group that is undertaking projects and activities that offer clear public benefit. They must be operating with a charitable purpose (i.e. not intended to just benefit an individual).

Recipients could include organisations like early childhood services, halls, community events, meals on wheels, neighbourhood houses, agricultural societies or other local charitable organisations.

Location Aus		Rounds Closes 10 Sep 2019
Funding Type Cash Grant G08406		Last Round Closed 27 Aug 2018
Primary Category Community Services & Development		

Purpose

Australian Aid: Friendship Grants aims to bring a new and diverse group of partners from across Australia to contribute to the delivery of Australia's aid program.

Overview

The Friendship Grants program is a three-year, \$10 million grants program managed by DFAT. The program will provide funding to successful Australian community organisations (ACOs) who are already delivering effective international development work in the Indo-Pacific region.

The Friendship Grants program provides the Australian Government with an opportunity to:

- engage new partners in the Australian aid program;
- strengthen connections between Australian communities and communities in the Indo-Pacific region; and
- promote the UN Sustainable Development Goals.

The program is designed to support organisations to expand or enhance their existing international development work in the Indo-Pacific region through financially supporting a specific activity within a wider program of work.

As a grant applicant, you will need to demonstrate an existing and positive relationship with an in-country community and evidence that you are already undertaking international development efforts in that community.

Over the three-year program, there will be three annual, competitive rounds.

Eligible organisations may apply for one-off annual grants of between AUD\$30,000 and AUD\$60,000 (GST exclusive) to fund a specific Activity that makes up part of your organisation's longer-term work.

Funding is for a time-limited Activity of no more than 12 months' duration. The Activity must make up part of your organisation's longer-term program of work, but the Activity itself should commence after the Round 1 commencement date and funds must be fully spent within 12 months.

Your organisation will be required to match DFAT's funding contribution at a ratio of AUD\$1 for every AUD\$5 of Friendship Grants funds received.

Purpose

To support "awesome" projects including initiatives in a wide range of areas including arts, technology, community development, and more.

Overview

The Awesome Foundation is a global community advancing the interest of awesome in the universe, \$1000 at a time.

Each fully autonomous chapter supports awesome projects through micro-grants, usually given out monthly. These micro-grants, \$1000 or the local equivalent, come out of pockets of the chapter's "trustees" and are given on a no-strings-attached basis to people and groups working on awesome projects.

Every chapter interprets "awesome" for itself. As such, awesome projects include initiatives in a wide range of areas including arts, technology, community development, and more. Many awesome projects are novel or experimental, and evoke surprise and delight. Awesome sometimes challenges and often inspires. Browse some grants on the chapter pages of their website for examples.

Applications close the day before monthly meetings.

Assessors meet on the second Tuesday of each month and award the grant recipient, considering all the previous month's applications.

Limitations

Who can apply?

Anyone is eligible for a grant — individuals, groups, and organisations alike.

Most chapters show a strong preference for projects that contribute to their own communities, though some occasionally consider applications from further afield. Try to apply to a chapter near you, in a location where you have roots, or that you think would have a particular interest your idea. If this isn't possible, you can select "Any" on the application form, or apply to one of a handful of thematic chapters.

Harcourts Foundation Grants

Funding Provider Harcourts Foundation	Eligible to  Not-for-Profit  DGR Required	Funding Total Pool: Undisclosed
Location Aus		Rounds Closes 30 Sep 2019 Opens 1 Oct 2019 Closes 31 Dec 2019
Funding Type Cash Grant G07264		Last Round Closed 30 Jun 2019
Primary Category Community Services & Development		

Purpose

No matter the size of your organisation, the Harcourts Foundation not only gives back to those affected by large scale cataclysmic disasters but to charitable community organisations or assists with helping individuals in need.

Overview

- Grants applications must be requested for a specific event, project or initiative.
- Requests for the event, project, item, or initiative must be scheduled to occur within four months of the upcoming Grant decision meeting date (meetings are held in the month following the end of the quarter).
- Grants will not be given for items already purchased or events/initiatives/projects already held.
- If the Grant is not used for the purpose for which it was applied, we will request that you return it so we can provide it to another deserving group.
- We may ask for supporting documents such as quotes, references etc.
- If you are a branch of an organisation where another branch has been successful in achieving a Grant from us in the past, this does not mean you automatically qualify for a Grant. Each application will be considered independently based on funds available and circumstances at the time.
- If you are successful, please do not apply within the next 18 months, as we would like to assist other organisations.
- You may apply as a national or regional organisation, however your application must be for a specific community event, project, item, or initiative that fits the criteria.

Priority

Priority is given to those areas where the Harcourts office is currently a financial contributor to The Harcourts Foundation (Note: many of the offices fund and support a huge range of community initiatives through their own offices as well as through The Harcourts Foundation).

In the event that the Foundation receive more applications that meet the criteria than funds are available, Harcourts will prioritise those applicants which demonstrate their grant will have the widest community impact.

Limitations

The Foundation can only make grants to organisations with BOTH Deductible Gift Recipient (DGR, Type 1) and Tax Concession Charity (TCC) status.

Because most of the funding for The Harcourts Foundation is generously provided by our Harcourts offices, the Foundation will only consider applications from groups for a specific event, project, item, or initiative where Harcourts has an office.

Please do not apply if your grant request is for any of the following:

- Individual needs – the focus is on supporting as many people as possible within our communities.
- Overseas or other travel costs – (individuals or groups) unless a direct community benefit can be shown.
- Religious, political, or lobby causes/activities.

IGA Community Chest raises funds to support local communities, charities and other worthwhile causes. It could be in response to a major event like floods or bush fires or something as simple as new soccer balls for the local under 8's.

The money is raised in a number of ways but predominately through the purchase of products with an IGA Community Chest logo on the label or ticket.

When you purchase a product with the IGA Community Chest logo printed on the label a percentage is credited to that store's IGA Community Chest account.

In most states IGA Community Chest beneficiary cheques are distributed throughout the year, meaning you can apply at any time.

How are IGA Community Chest beneficiaries chosen?

There is a tiered system for choosing beneficiaries.

- For local activities the beneficiaries are chosen by the local stores
- Regional activities they are chosen by the region or group of stores
- State beneficiaries are chosen in consultation with the State Executive and Board.

Here is a couple of tips on becoming an IGA Community Chest beneficiary:

- It is best to approach your local IGA store directly. Prepare a pitch and it may include:
 - An overview of your organisation and/or the individual that you'd like supported;
 - What support are you looking for – monies, donations of goods, providing team jumpers, holding regular fundraising at the store, group registrations at the store, etc;
 - How the donation will be used and your timing.
 - Is there anything you can offer in return to IGA?
 - Don't forget to include your contact details.

Example

The Humpty Dumpty Foundation The Humpty Dumpty Foundation and Independent Grocers of Australia (IGA) made a significant difference to the lives of Sydney children. From January 2017, IGA made 11 donations across NSW and ACT to support much-needed medical equipment for hospitals to the value of \$150,000. IGA's support of the Humpty Dumpty Foundation and the local community is immeasurable. The support to families in Sydney means children have access to medical equipment that is very much needed by the medical staff and, most of all, it is life-saving.

Westmead Children's Hospital Mint Fresh IGA in Baulkham Hills visited The Children's Hospital at Westmead in February to present a \$2,670 Aerogen Nebuliser to the Paediatric Intensive Care Unit. The money for the nebuliser, which makes the administering of medications easier for children with respiratory illnesses.

Moruya District Hospital The Humpty Dumpty Foundation and Dalmeny IGA purchase a piece of vital medical equipment for the Eurobodalla children. Local IGA retailers presented Moruya District Hospital with a jaundice detector valued at \$4,780 for the Maternity Unit. This jaundice detector is used to help clinicians determine the jaundice levels through the skin without harming the baby.

MX550 Patient Monitor IGA retailers and the Humpty Dumpty Foundation donated \$26,920 to fund a MX550 Patient Monitor for the Blacktown Hospital's special care nursery. The monitors are used daily to measure a child's blood pressure temperature, heart rate and respiratory rate to determine how well they are recovering from surgery.

For example, the first batch will contain all applications submitted to the grant opportunity between the opening date of the application period and 3 July 2019. - Initiatives where the grant forms part of a project budget of less than \$100,000.

Only small, discrete projects that meet the needs of a community rather than supplementing the funding of large projects will be supported.

The program runs throughout the financial year, with small grants reviewed and assessed biannually. Applications are assessed by a committee, which exercises its discretion in accordance with an annual budget.

How do I apply?

To apply for the Small Grants Program, you'll have to have a quick chat with CCI Giving first. They don't want organisations wasting their time if they're unlikely to be successful. Please ring and leave a message at this number: (02) 9779 6317 or email your contact details. Please note that while CCI Giving endeavour to respond within 48 hours, due to the high volume of enquiries they receive, it may take up to 5 working days for your call to be returned.

Priority

Priority is given to Catholic organisations implementing charitable, humanitarian or social justice initiatives within or for the Catholic community. If your charity is a Catholic agency, its activities are automatically considered 'consistent with Catholic teaching'.

Location Aus		Rounds Closes 30 Aug 2019 5pm
Funding Type Cash Grant G07378		Last Round Closed 30 Jun 2019
Primary Category Community Services & Development		

Purpose

The purpose of this grant is to enable individuals and community groups to develop sustainable With One Voice Social Franchises through establishing a community choir.

Overview

To celebrate its 10-year anniversary, Creativity Australia is offering grants of up to \$10,000 to people or groups who are wanting to start their own With One Voice choir. Only 10 of these grants are available, and all applications must be submitted by Friday 30th August 2019.

Creativity Australia's With One Voice movement is a network community choirs that bring together people from all faiths, cultures, ages, abilities, backgrounds and socio-economic situations. We currently have 25 choirs located across Melbourne, Sydney, Adelaide, Brisbane, Canberra and regional Victoria, with thousands of choir members ranging in age from nine to 90 years old, and we are growing monthly!

With One Voice choirs are set up and run by local volunteers using resources and materials provided by Creativity Australia.

By establishing a local community choir under the auspices of Creativity Australia, you hold a licence that enables the choir to fundraise to support projects and initiatives at a local level.

The choir is set up as an unincorporated association under the umbrella of Creativity Australia. This includes an independent bank account which is jointly managed by the local choir volunteers and Creativity Australia.

There are seven key components to the program:

1. Bringing together a diverse range of local community individuals and organisations to promote, commence and participate in the program;
2. Finding an extraordinary music leader who is empathetic and inspiring;
3. Finding a safe, nurturing space to hold rehearsals at that is accessible and close to public transport or infrastructure;

4. Seeking out diversity - all ages, backgrounds and cultures are welcome, and there are no auditions;
5. Showcasing your choir by performing locally and celebrating accomplishments;
6. Nurturing social connections between choir members by rehearsing weekly, sharing a meal and facilitating the Wish List component; and
7. Building sustainability by develop community and business connections, recruiting volunteers and fundraising. The Creativity Australia team works with you and provides mentoring and support through each of these steps.

It can cost up to \$23,000 per year to run a With One Voice choir, though the majority of our choirs are able to secure donated or heavily discounted venues and/or food, taking the costs down to roughly \$15,000 per year.

The costs of running a choir for one year may include:

- Conductor (depending on total number of rehearsals and performances) \$10,000
- Venue \$5,000
- Supper \$5,000
- Resources (insurances, licences, uniforms, incidentals) \$3,000
- Possible Annual Total (without any donated or discounted support) \$23,000

The choir is responsible for raising the funds to keep the program running each year. Where in-kind or heavily discounted support can be found (such as venue and/or supper), this will reduce the total amount of fundraising the choir needs to undertake.

There are four key ways a choir can generate income:

1. Membership contributions;
2. Performance donations;
3. Donations from local businesses or government; and
4. Participants accessing National Disability Insurance Scheme (NDIS) funding to pay for their choir participation through their NDIS plan.

Most With One Voice choirs can raise between \$6,000 - \$12,000 per year through membership contributions. A further \$1,000-\$3,000 can be raised through performances and donations. Some choirs raise significantly more funds through larger memberships, more donations and local funding grants and partnerships.

Limitations

Are you eligible to apply?

Creativity Australia welcomes applications to establish With One Voice choirs from all community-based groups or organisations that have an interest in building healthier, happier, more inclusive and stronger communities.

ILC Individual and Organisational Capacity Building Grants

Funding Provider National Disability Insurance Agency (NDIA)	Eligible to  Local Govt  State Govt  Business  Not-for-Profit	Funding Total Pool: \$100,000,000 Rounds Closes 30 Sep 2019 11pm AEST
Location Aus		
Funding Type Cash Grant G09250		
Primary Category Disability		

Purpose

The aim of the Individual Capacity Building (ICB) Program is to provide people with disability the skills and confidence to participate and contribute to the community and protect their rights.

Overview

The ICB Program will achieve this by enabling systematic access to peer support, mentoring and other skills building for people with disability, carers and families, to develop their individual capacity. This could include activities that empower a person to be independent and to engage in social, economic and community life.

The grant can fund activities that align with the following two activity types:

- **Activity type 1:** Individual Capacity Building (ICB), which are activities that build the capacity of people with disability by ensuring that they have the knowledge, skills and confidence they need to set and achieve their goals. Proposed activities must be for the primary and direct benefit of people with disability, and developed and delivered in collaboration with people with disability.
- **Activity type 2:** Organisational Capacity Building (OCB), which are activities that improve the ability of DPO/FOs to deliver their organisational mission and to deliver ILC in the community.

A total of \$100 million (GST Excl.) or \$110 million (GST Incl.) is available for up to three years for this Individual Capacity Building grant opportunity.

The table on pages 7-8 of the guidelines document outlines how much is available and the duration of the grants for the different organisation types that can apply.

This grant round will be a national round with a spread of grants across all jurisdictions. Applicants can apply to deliver activities nationally, across multiple jurisdictions, state-based or in particular regions or local areas.

Only applicants that meet the DPO/FO criteria can apply to deliver OCB activities. Further, DPO/FO applicants cannot apply to deliver only OCB activities. DPO/FO applicants must also apply to deliver ICB activities.

Outcomes

The intended outcomes of the ICB activities are:

- increased skills and capacity of individuals

Overview

The program will provide grants to eligible Australian tertiary education providers to allocate, administer and promote scholarships for international and domestic students studying in regional Australia. The grants are for scholarships commencing from Semester 1, January 2020 onwards.

A total of \$93.7 million (GST exclusive) has been announced over four years for the Destination Australia Program. Under the 2020 grant opportunity, there is approximately:

- \$19.5 million in funding available during 2019-2020
- \$19.5 million in funding available during 2020-2021
- \$19.5 million in funding available during 2021-2022
- \$19.5 million in funding available during 2022-2023.

Funding of \$15,000 per scholarship, per year, and \$1,500 in promotional and administration assistance per scholarship, per year, will be awarded to successful providers who will run their own processes for allocating and awarding scholarships to students.

Grant recipients will nominate the number of scholarships they wish to deliver. There is no minimum or maximum grant amount for a tertiary provider; however, grants cannot exceed the amount of available funds.

It is intended the scholarships be available to support students for the duration of a full eligible qualification. It is also intended available scholarships be distributed, where possible, evenly between international and domestic students. Funding will be made available for each year of a student's qualification, should they remain eligible, for up to four years.

Intended outcomes

- international and domestic students receive Australian Government scholarships for studying in regional Australia
- increased awareness of the benefits of living, studying and working in regional Australia.

Scanlon Foundation Community Grants

Funding Provider Scanlon Foundation	Eligible to  Local Govt  Not-for-Profit  DGR Required	Funding Amount: \$5,000 to \$25,000
Location Aus		Rounds Closes 12 Sep 2019 Midnight
Funding Type Cash Grant G02857		Last Round Closed 14 Sep 2018
Primary Category Education, Training & Professional Development		

Purpose

The Scanlon Foundation's annual community grants round for 2019 will fund projects that support the transition of migrants into employment or support practical English literacy.

Overview

Projects should consider the experience of migrants and of receiving communities and aim to nurture positive outcomes. The Scanlon Foundation is seeking expressions of interest for projects that empower communities and develop intercultural connections.

Key Criteria

The Scanlon Foundation is looking to support projects that demonstrate their contribution to social cohesion by

1. building pathways to employment; or
2. increasing applied English literacy.

Successful projects will need to fulfil the criteria relevant to either 'pathways to employment' OR 'literacy below.

In addition all grants will be assessed against innovation criteria. The Foundation is particularly interested in exploring new and innovative ways to engage, empower and connect communities.

Pathways to employment

Grants in this category are looking to actively support people into employment. Successful applicants will go beyond resume writing and interview skills to actively engaging with local employers.

- **Employment Pathways** - Programs that contribute to the building of employment confidence, conversational skills, resume building, presentation of experience and strengths both verbally and in written materials.
- **Local business engagement** - Programs that actively facilitate engagement with local businesses to introduce or expand experience of workplace cultures, language and colloquialisms, and offer and provide recognition of direct activities that build on strengths and capabilities or introduce new 'in demand' skills. Programs may also provide support and coaching for new business initiatives that connect to business associations and market opportunities.

- **Cross cultural conversations** - Projects should encourage intercultural conversations to share and recognise mutual contributions.
- **Transition support** - Projects should look to encourage intercultural conversations to share and recognise mutual contributions.

Literacy

Grants in this category will focus on English literacy. Specifically, programs will teach applied and conversational English which can be used in both day-to-day and work environments.

- **Literacy** - Programs that actively and innovatively develop literacy skills using means that engage with those that are unable or ineligible for other programs.
- **Applied English practice** - We are also looking for programs that focus specifically on English literacy that can be applied in day to day and work environments. As well as facilitating pathways into employment, it is vital that social cohesion is also supported in proposed projects.
- **Community engagement** - Programs should link participants into the broader community. This could occur by engaging with a broad range of community organisations or additional interactions in a cross-cultural environment.
- **Cross cultural conversations** - The Foundation looks specifically for projects that foster greater understanding between different cultures and faiths.

Limitations

Only organisations with DGR 1 status will be provided with a grant. Your organisation is welcome to partner with an organisation who has DGR 1 status so long as the application comes directly from the organisation with DGR 1 status.

Local government bodies are welcome to apply for specific projects through the annual Community Grants where these projects engage and empower the broader community including both new and emerging and receiving communities. However, any local government would need to have obtained DGR1 status.

Black Spot Program

<p>Funding Provider Department of Infrastructure, Transport, Cities and Regional Development</p> <p>Location Aus</p> <p>Funding Type Cash Grant G00525</p> <p>Primary Category Emergency & Safety</p>	<p>Eligible to</p> <ul style="list-style-type: none"> ✓ Local Govt ✓ State Govt ✓ Not-for-Profit ✓ Unincorporated Assoc ✓ Individual 	<p>Funding Amount: Undisclosed Total Pool: \$744,500,000 (approx)</p> <p>Rounds Ongoing</p>
---	--	---

Purpose

To reduce crashes on Australian roads and to target those road locations where crashes are occurring.

Overview

The Australian Government will provide \$744.5 million to the Black Spot Program from the 2013 to 2014 financial year to the 2021 to 2022 financial year, with an on-going commitment of \$60 million each year following.

Road crashes are a major cost to Australians every year. Black Spot projects target those road locations where crashes are occurring. By funding measures such as traffic signals and roundabouts at dangerous locations, the program reduces the risk of crashes.

The Black Spot Program makes an important contribution in reducing the national road toll under the [National Road Safety Action Plan 2018–2020](#).

Anyone can nominate a 'black spot' for funding consideration, using the official nomination form. Candidate projects are first assessed by the relevant state road authority, which has details of the crash history of the site and the expertise to assess the appropriate treatment.

Community Consultation Widespread community consultation and participation is fundamental to this program, ensuring that local concerns are addressed.

Community groups, motorist organisations, industry organisations, councils and individuals are invited to nominate Black Spot sites around Australia to be considered for treatment.

Coordination States and territories play an important coordinating role. A Consultative Panel has been established in each state and territory. It consists of representatives drawn from community and road user groups, industry, the Australian Government, local government and state road and transport agencies. Panels provide comment to the Australian Government on nominations for Black Spot works.

Rural Projects More than 60% of road deaths and a significant proportion of serious injuries occur outside metropolitan areas. In line with national road safety policy objectives, approximately 50% of Black Spot funds in each state (other than Tasmania, the Australian Capital Territory and the Northern Territory) are reserved for projects in non-metropolitan areas. This ensures that crash locations in rural areas are treated.

Limitations

Community groups, motorist organisations, industry organisations, councils and individuals are invited to nominate Black Spot sites around Australia to be considered for treatment.

What makes a site eligible for funding?

Funding is mainly available for the treatment of Black Spot sites, or road lengths, with a proven history of crashes. Project proposals should be able to demonstrate a benefit to cost ratio of at least 2 to 1.

For individual sites such as intersections, mid-block or short road sections, there should be a history of at least three casualty crashes over a five-year period. For lengths of road, there should be an average of 0.2 casualty crashes per kilometre per annum over the length in question over five years.

The requirement of a history of crashes ensures that those sites that have a recurrent problem are targeted first for treatment.

The Black Spot Program also recognises that there are road locations that could be considered as 'accidents waiting to happen'. Therefore, some program funds may be used to treat sites where road traffic engineers have completed a Road Safety Audit and found that remedial work is necessary. This allows an opportunity for proactive safety works to be undertaken before casualties occur.

Funds cannot be used for the purchase of road-building plant or equipment, or for operational or maintenance costs.

Community Road Safety Grants

Funding Provider Transport for NSW	Eligible to ✔ Not-for-Profit ✔ Unincorporated Assoc	Funding \$30,000 Total Pool: Undisclosed
Location NSW		Rounds Closes 15 Sep 2019
Funding Type Cash Grant G07272		Last Round Closed 10 Jun 2018
Primary Category Emergency & Safety		

Purpose

The Community Road Safety Grants Program aims to provide community groups across NSW with the opportunity to implement small scale, local programs within their communities consistent with the NSW Road Safety Plan 2021.

Overview

These projects contribute to increased road safety awareness and understanding, and support safer road use through education of safer behaviours and reduced road trauma.

Projects should align with the internationally recognised Safe System approach to improving road safety which takes a holistic view of the road transport system and the interactions among the key components of that system. The road user, roads and roadsides, the vehicle and travel speeds are part of that system and all have a role to play in helping to keep road users safe.

Applications made as part of the program must be evidence-based, using research or best practice principles. They must address identified local issues, targeting a specific group or issue, and align with the NSW Road Safety Plan 2021.

Funding

Grants up to \$5000 (plus GST) are available for local community road safety projects, such as educational projects to increase road safety awareness in specific communities.

A limited number of more substantial road safety grants are also available, with funding up to \$30,000 (plus GST). Detailed project plans will be required to demonstrate the need, road safety benefit, and proposed expenditure of projects.

Objectives

The objectives of Community Road Safety Grants projects are to:

- Facilitate opportunities for community organisations to work with their communities to improve road safety.
- Develop and implement local projects that improve road safety.
- Contribute to achieving targets in the NSW Road Safety Plan 2021.

The selection criteria is different for applicants applying for up to \$5,000 and those applying for up to \$30,000. See pages 9-10 of the guidelines document for more information.

Example

Some of the successful projects in Round Four of the grants included:

- Road safety workshops targeting culturally and linguistically diverse communities
- Road safety seminar series and newly arrived migrants
- Driver mentoring assistance for disadvantaged youth
- Awareness campaign targeting children's safety around cars.

You can find details about other projects in the complete list of [Round Four successful applicants](#).

Limitations

Eligibility

Transport for NSW will only fund NSW community-based organisations.

Applications for grants that may impact upon road infrastructure will be subject to approval by Roads and Maritime Services or local councils before being granted.

Proposed projects need to identify the road safety problem, and propose an effective way to address the issue. Proposals will be assessed by a panel using standard assessment criteria.

The following types of organisations are **ineligible** to apply:

- Individuals
- Research organisations
- NSW Government departments
- Local councils (Transport for NSW already funds the Local Government Road Safety Program)
- Road safety education programs targeting students or teachers in government and non-government schools (Transport for NSW already funds the education sectors for road safety education programs)
- Schools (Transport for NSW already funds the education sectors for road safety education programs).

Funding is not available for:

- Salary costs of staff to manage the project implementation
- Infrastructure already managed by councils or Roads and Maritime Services
- Projects that already receive funding or sponsorship from Transport for NSW.

Environmental Grants and Support

Funding Provider Patagonia Location Aus Funding Type Cash Grant G07448 Primary Category Environment & Sustainability	Eligible to  Not-for-Profit	Funding Amount: \$10,000 to \$20,000 Total Pool: Undisclosed Rounds Closes 31 Aug 2019 Last Round Closed 31 Aug 2018
---	--	---

Purpose

Patagonia supports local groups working to protect local habitat, and think the individual battles to protect a specific stand of forest, stretch of river or indigenous wild species are the most effective in raising more complicated issues—particularly those of biodiversity and ecosystem protection—in the public mind.

Overview

Patagonia Australia funds only environmental work and are most interested in making grants to organisations that identify and work on the root causes of problems and that approach issues with a commitment to long-term change. Their funding focuses on organisations that create a strong base of citizen support.

Patagonia support small grassroots activist organisations with provocative direct-action agendas, working on multi-pronged campaigns to preserve and protect our environment. They think the individual battles to protect a specific stand of forest, stretch of river or indigenous wild species are the most effective in raising more complicated issues—particularly those of biodiversity and ecosystem protection—in the public mind. They help local groups working to protect local habitats and frontline communities through bold, original actions. Patagonia look for innovative groups that produce measurable results, and like to support efforts that force the government to abide by its own laws.

Because Patagonia are a privately held company, they have the freedom to fund groups off the beaten track, and that's where they believe their small grants are most effective.

The grants open on 1 July, 2019 and close on 31 August, 2019.

Limitations

Eligibility

To qualify for Patagonia grant funding:

- Your organisation must be operated for the public good
- Your organisation must be a registered Australian or New Zealand charity, or have a fiscal sponsor with such status
- Your organisation, or your fiscal sponsor, must have a bank account for business purposes in the name of your organisation

- is action-oriented

- takes place within the following countries: Australia, New Zealand, United States, Canada, Japan, Korea, Chile, Argentina, United Kingdom, The Netherlands, Switzerland, Sweden, Spain, Norway, Luxembourg, Italy, Ireland, Germany, France, Denmark, Belgium, Austria and the Czech Republic

Macpac Fund for Good

Funding Provider Macpac	Eligible to  Not-for-Profit	Funding Amount: \$2,000 to \$10,000 Total Pool: Undisclosed
Location Aus		Rounds Closes 31 Oct 2019
Funding Type Cash Grant G09052		Last Round Closed 31 Jul 2019
Primary Category Environment & Sustainability		

Purpose

The Macpac team are passionate about protecting the environment and its wildlife, having a lasting positive impact on people's lives through the outdoors, and supporting the communities connected with Macpac. The Fund for Good is Macpac's way of giving back, and helping those committed to creating long-term change for the good of their people and the planet.

Overview

Macpac don't give large grants to just a few causes, they want to be able to make even a small difference to as many organisations as they reasonably can. So instead Macpac award modest contributions of between \$2,000-10,000 to those organisations who align with their ideals.

The groups they support fall into one of three areas:

Adventure-Based Social Development:

Macpac support those using the outdoors as a vehicle to help others. These community organisations run programs designed to rehabilitate, reform, or generally improve lives through experiences in the outdoors.

Environmental Projects:

The Macpac Fund for Good supports projects working hard to preserve the natural environment, restore and protect habitats, and to look after the creatures that call them home.

Ethical Manufacturing:

To meet Macpac's high standards, their factories are carefully selected for their ethical practices as well as their quality and commitment to innovation. Their workers are highly skilled and dedicated to their craft - every day they work tirelessly to create and assemble high quality goods that will travel the world, and last a lifetime. Often this means travelling and living away from their families, or relocating whole families to follow a work opportunity. Macpac want to make sure they know how much they're appreciated. The creature comforts which we so often take for granted can really make a difference in their day-to-day lives, so a small portion of Macpac Fund for Good funding goes back to the talented people who make the products.

If you are part of a not-for-profit organisation working on environmental and social causes related to the outdoors, then you may be eligible for a Macpac Fund for Good grant.

If you would like to apply, fill out an application form, and return the completed application form to Fund.forgood@macpac.co.nz

Small Environment Grants

Funding Provider The Norman Wettenhall Foundation	Eligible to  University  Not-for-Profit  Individual	Funding Amount: \$1,000 to \$10,000 Total Pool: Undisclosed
Location Aus		Rounds Ongoing
Funding Type Cash Grant G00579		
Primary Category Environment & Sustainability		

Purpose

To provide support for people undertaking projects that will make a positive difference to the natural living environment, in land, sea or air, rural or urban.

Overview

Grants are usually under \$10,000. The Foundation also grants on behalf of donors, and their programs can be over \$10,000 e.g. the landscape restoration and education grants. If you have a project over \$10,000, check with the Foundation first.

Universities and academics can only apply for up to \$5,000.

The Foundation is looking for projects around:

- flora and fauna conservation (Australia-wide)
- threatened mammal conservation (Australia-wide)
- landscape restoration and education (Victoria only)

These projects should involve any of the following:

- monitoring, recording and sharing data
- delivering community education
- providing community capacity building (e.g. training)
- research and science

Grants are awarded four times a year – February, May, August and November.

There are opening dates for these grant rounds, but no closing dates – a round is closed when a suitable number and spread of applications have been received to present to the Trustees. So it's best to get in as soon as you can when the round opens.

Here are dates when the rounds open and the application form appears online:

- 3rd December 2018 (funding in February 2019) – **closed**
- 1st April 2019 (funding in May 2019) - **closed**
- 1st July 2019 (funding in August 2019)
- 1st October 2019 (funding in November 2019)
- 9th December 2019 (Funding in February 2020)

The Trustees meet four times a year to decide on applications. If you apply in December, you find out in February. If you apply in March, you'll hear in May. If you apply in June, you'll hear in August. If you apply in September, you'll hear in November. See the Dates for applying page for dates. We can't fund retrospectively so make sure you get the dates right.

Limitations

Can you apply?

- Is your project about Australian flora and fauna conservation, threatened mammal conservation, or landscape restoration and education?
- Do you have partners?
- Is your project ready to go, and can you do it? Be sure before you apply.
- We fund projects as small as \$1,000, and sometimes fund over \$10,000, but grants are usually under \$10,000. Please don't just stick \$10,000 in the budget line – *we aren't a government agency and don't appreciate people asking for the maximum amount. Ask us for what the project **really** costs.*
- Universities – you can apply for up to \$5,000. But we don't fund pure research, you must be partnering with an 'on ground' group and be able to show it. **You must have a community partner.**
- All grant recipients must fill in a final report on-line at the end of their project. The signed grant conditions letter is your written agreement to this. Please don't apply unless you are willing to do this report. *If you don't report, you can't apply again.*
- If you're not sure whether to apply, email **Beth**, who is more than happy to give advice before you make an effort to fill in the form. But please don't send documentation to read about your project.

What will be funded:

- Projects that directly make positive changes to biodiversity conservation in Australia.
- Projects with long term objectives and values.
- Projects that show the following: enthusiasm, collaboration, passion, innovation
- Projects that use citizen science
- Projects that are about community education relating to conservation

What we don't fund:

- Art projects
- School projects
- Advocacy
- Tree planting, fencing or pest plant or animal control
- Private property owners or farm projects
- Workshops alone, any workshops need to be a part of a larger project with an 'action' component
- Invasive monitoring
- Gardens- bush good gardens, sensory gardens, veggie gardens, chicken houses, water tanks, arboretums etc. (particularly in kinders and schools)- we're too small to fund all these projects around Australia so please don't apply
- Animal or wildlife refuges and their activities
- Pure academic research- academic applicants need to show how their research is directly linked to a community group doing conservation work. Research needs to be of benefit to those groups working on habitat or species conservation. eg. applications for research on how climate change will affect particular species without the research being done in conjunction with a group that can work towards conserving that species on the ground will not be accepted.

Overview

A total of \$500,000 is available each year. You can apply at any time. Funding is approved on a case-by-case basis.

The National Cultural Heritage Account keeps Australian protected objects in Australia so they can be preserved and made available to the public.

Aboriginal Land Clean Up and Prevention Program

Funding Provider Department of Environment, Climate Change and Water (NSW)	Eligible to ✔ Local Govt ✔ State Govt ✔ Business ✔ Not-for-Profit	Funding Amount: \$10,000 to \$75,000 Total Pool: \$1,000,000
Location NSW		Rounds Closes 30 Sep 2019 5pm
Funding Type Cash Grant G05034		Last Round Closed 2 Nov 2015
Primary Category Indigenous		

Purpose

Illegal dumping is an environmental crime and can cause serious environmental pollution, pose a risk to human health and impact local amenities and community pride. The EPA acknowledges that the health and wellbeing of Aboriginal people is related to the protection of the environment.

Overview

Program objectives:

Funding offered under the program aims to:

1. Reduce the impacts of illegal; dumping on Aboriginal land through clean up and prevention activities
2. Build and maintain collaborative approaches and partnerships to help manage and reduce the occurrence of illegal dumping
3. Integrate deterrence, surveillance, monitoring measures and community education to prevent illegal dumping activities on Aboriginal land
4. Incorporate cultural activities that enable Aboriginal people to care for Country, engage in knowledge sharing and gain skills in land management

Who can apply?

- NSW Local Aboriginal Land Councils (LALC)
- Entities working in partnership with a LALC such as government agencies, local councils, non-government organisations, consultants and other entities (written consent from the LALC is required).

What is the eligibility criteria?

Grants under this program are made available to organisations not individuals. To be eligible for a grant under the ALCUP program, you must meet the following criteria:

- projects must be in NSW
- applicants must be able to demonstrate that they are a LALC entity, or have the formal support of the LALC that manages the site on which the project is proposed
- projects must be relevant to the management of illegal dumping on Aboriginal-owned land and involve the clean-up, prevention and/or deterrence of illegally dumped waste and cultural activities to support Caring for Country

- applicants must not have any outstanding acquittals from previous NSW Government funding.

Priority

Key strategies supported

Make access difficult

At illegal dumping sites that were easily accessible to unauthorised vehicles, ALCUP funding saw fencing, gates, earth mounds, boulders and concrete bollards installed to restrict and control access. Tracks were also re-seeded once access was blocked.

Increase risks of getting caught

Increased surveillance activities, and installed signs in a number of illegal dumping hotspots identified by the project teams to deter unlawful activity. Some signs incorporate strong cultural messages, using local Aboriginal language and artwork.

Reduce opportunities for crime: don't give a reason to dump

Waste, weed and fire management issues are often intertwined. Following clean-up work, projects have included or allowed future activities, such as tree planting or cultural fire burns, to help property managers restore and maintain value of the land.

Remove excuses: educate and inform the community

Some projects are carried out in parallel with other waste and environmental education programs, such as school poster competitions. Projects have also used media and other publicity opportunities to raise awareness.

Limitations

What projects will not be funded?

The ALCUP program provides funding for new projects whose dominant purpose is achieving clean-up and prevention of illegal dumping. Therefore, it will not fund:

- projects that have already commenced
- projects and activities that are not directly related to, or are not for the dominant purpose of, achieving the clean-up, long-term prevention and deterrence of illegal dumping
- projects which focus on the clean-up of small litter items (such as cigarette butts, cigarette packets, food containers, plastic bottles, confectionary wrappers)

Who can apply for funding?

All PBCs are eligible to apply for the funding. Native Title Representative Bodies and Service Providers (NTRBs-SPs) and other third parties, for example, law firms and interest groups, can also apply to receive and administer the funding on behalf of, and with the authorisation of, one or more PBCs.

Applicants must also meet all eligibility criteria outlined in the IAS Grant Guidelines, and undergo financial viability checks and a risk assessment.

What cannot be funded?

Activities which will not be funded are stipulated in the IAS Grant Guidelines under the Jobs, Land and Economy Programme. These activities include but are not limited to:

- applications that do not clearly address at least one of the IAS programme streams
- activities that are more appropriately funded by other Government agencies (including State/Territory and local Government) under their priorities
- retrospective items or activities, and
- costs reasonably covered by proponent parties.

PBCs will not be funded for costs that would be payable under the 'Basic Support Funding' under the Native Title and Land Rights Activity under the Jobs Land and Economy Programme and administered by NTRBs-SPs, as this would duplicate available funding.

While eligibility for PBC capacity building funding is restricted to PBCs or support for PBCs only, PBCs can apply for funding under other IAS funding streams and Australian Government programmes. PBC capacity building funding is intended to complement other sources of grant funding. A specific activity cannot be funded under more than one programme.

NHMRC Partnerships Projects

Funding Provider National Health and Medical Research Council (NHMRC)	Eligible to <ul style="list-style-type: none">✓ Local Govt✓ State Govt✓ Business✓ University✓ Not-for-Profit	Funding Amount: \$0 to \$1,500,000 Total Pool: \$31,600,000
Location Aus		Rounds Closes 4 Dec 2019 5pm AEDT
Funding Type Scholarship S04715		Last Round Closed 5 Dec 2018
Primary Category Research		

Purpose

Partnership Projects will support connections, within the Australian context, that translate research evidence into health policy and health practice, to improve health services and processes.

Overview

The scheme aims to support the work of healthcare policy and service delivery implementation agencies by supporting the translation of research outcomes into policy and practice and the evaluation of current policy and practice to identify gaps in knowledge. This type of research is normally conducted outside of universities and medical research institutes. It is for this reason that universities and medical research institutes are generally not eligible to partner with researchers through the scheme. Universities and medical research institutes can continue to participate as an Administering or Participating institution.

Partnership Projects will address the delivery, organisation, funding and access to services and programs that affect the health of Australians. Research may involve preventative programs, primary and community health care, hospitals, community services, the health workforce and infrastructure.

Funding:

Partnership Projects are for five years or less and the maximum amount of NHMRC funding that may be requested for a single application is \$1.5 million

Objectives:

The objectives of the scheme are to:

- meet the need for a more effective integration of research evidence into health policy and service delivery
- create partnerships among policy makers, managers, service providers and researchers
- provide support to answer often complex and difficult questions that policy makers, managers and service providers face when making decisions and implementing policies that affect Australians' health and health care
- be highly responsive to the priorities of government, the community and health professionals
- enable applicants to apply for funding at any time during the year to allow researchers and partner organisations to develop timely collaborations.

Assessment criteria:

Applications will be assessed and ranked against the Assessment Criteria listed below (percentage values of the total score are provided in brackets):

- Track Records of the Chief Investigators, Partner Organisations and Partner Investigators, Relative to Opportunity (25%) 5
- Scientific Quality of the Proposal and Methodology (25%)
- Relevance and Likelihood to Influence Health and Research Policy and Practice (25%)
- Strength of Partnership (25%).

Critical dates:

- 28 MArch 2018: Minimum data due in RGMS for Peer Review Cycle No. 1
- 1 August 2018: Minimum data due in RGMS for Peer Review Cycle No. 2
- 21 November 2018: Minimum data due in RGMS for Peer Review Cycle No. 3
- 5 December 2018: Applications close for Peer Review Cycle No. 3

Limitations

General eligibility:

Institutions must be an NHMRC approved Administering Institution to be eligible to receive and administer NHMRC funding - refer to the NHMRC website for a list of approved Administering Institutions.

NHMRC and Partner Funding:

Applications must be joint submissions from a research agency and one or more policy/practice agencies which are able to contribute at least 50% of the total value of the research project in cash and/or in kind. The level of funding requested from NHMRC must not exceed the total contribution from partners. Applications that exceed this will be deemed ineligible.

Who can be a partner organisation?

NHMRC invites applications involving partner organisations whose decisions and actions affect Australians' health, health policy and health care delivery in ways that improve the health of Australians. Organisations that are capable of implementing policy and service delivery and would normally not be able to access funding through most NHMRC funding mechanisms are highly valued as partners. They include organisations such as:

- those working in federal, state, territory or local government – in the health portfolio or in other areas affecting health, such as economic policy, urban planning, education or transport
- those working in the private sector such as employers, private health insurance providers or private hospitals
- non-government organisations and charities
- community organisations such as consumer groups
- healthcare providers
- professional groups.

Partnerships with an overseas agency are acceptable provided the objectives of the Partnership Projects funding scheme are fully met.

What can be claimed as a cash contribution?

- The salary costs of new staff employed and dedicated to work on the research.
- Funds provided as salary support to the research agency.
- Funds to pay for proposed travel.
- Funds to purchase new equipment.
- Cash to fund direct research costs for the project.

What can be claimed as in-kind contributions?

- Salaries or proportions of salaries of established staff who will be released to work on the research.
- Use of existing equipment owned by the partner agency for the project.
- Use of facilities and materials owned by the partner agency in conducting the research.

Applicants should note the following changes to the Partnership Projects 2019 Guidelines:

- Additional funding may be available to support research to improve the diagnosis and treatment of patients with mental health issues through the Medical Research Future Fund (MRFF) Million Minds Mission.
- The Partnership Projects 2019 Guidelines incorporates documents previously referred to as the NHMRC Funding Rules and the Partnership Projects scheme-specific Funding Rules.

Ovarian Cancer Research Foundation Collaboration

Funding Provider National Breast Cancer Foundation	Eligible to ✓ Business ✓ University ✓ Not-for-Profit	Funding Amount: Undisclosed to \$1,000,000 Total Pool: Undisclosed
Location Aus		Rounds Closes 27 Sep 2019
Funding Type Cash Grant G08574		Last Round Closed 28 Sep 2018
Primary Category Research		

Purpose

The goal of this funding opportunity is to tackle and answer the most critical clinical questions affecting women diagnosed with breast and ovarian cancer, with the potential to transform the clinical management of both of these conditions by delivering high impact patient outcomes significantly faster than existing funding mechanisms.

Overview

Emerging evidence suggests that there is significant overlap in the mutation profile and endocrine-driven signaling pathways of patients with breast cancer and ovarian cancer. These developments clearly offer exciting new opportunities to support collaborative cancer research projects that benefit many more women compared to tumour-specific approaches.

The Initiative will complement existing national research programs, operated independently by the OCRF and NBCF.

Excellence in project design and infrastructure, complemented by an outstanding team of scientists must be demonstrated.

Funding

The total funding available is AUD\$1 million over 3 to 5 years which will fund one or two research projects. The total requested budget must not exceed AUD\$1 million. All applications will be subject to a thorough budget review as part of the peer review process.

Funding is **offered** for the following aspects of research related costs:

1. Salaries, in whole or in part, for research fellows, trainees, research assistants, coordinators, technicians, administrative staff, and other personnel deemed essential to enhance the collaborative research productivity of the team.
Salaries will be based on current university salary scales and will be adjusted pro-rata for intended FTEs lower than 1.0. Salary on-costs will be support to a limit of 9.5% superannuation. Strictly no other salary on-costs will be supported.
2. Research operating costs for the proposed research program, which must be distinct in their objectives from those for which team members currently receive other sources of funding. This comprises costs of data collection and infrastructure.
The applicants have to clearly articulate the scientific excellence of their project design and its feasibility to be carried out in the specified timeframe (3 to 5 years). Costing has to be realistic and competitive.
3. A limited amount of national conference expenditure.
4. Costs involved in linkage with, downstream translation and dissemination of research findings to those who will use the results as appropriate to the particular research aim. The application must provide a detailed justification of all costs.

Limitations

Eligibility

Administering Institution

- The proposed project must be located/managed/operated under the auspices of a University, hospital or major research institution(s) located within Australia.
- A single institution must be nominated as the Administering Institution.
- The institution must have in place policies and procedures for the management of public funds, for the management of Intellectual Property, for the proper conduct of research in relation to ethics and good scientific conduct.
- If funding is granted, the institution nominated as the Administering Institution must agree to perform the proposed Project on the terms of the NBCF-OCRF's standard funding agreement (Funding Agreement).

Applicant (Principal Investigator, PI)

Each applicant can nominate a maximum of 6 Co-Investigators (CIs). The applicant can also nominate Associate Investigators (AIs) that will have an advisory role to the project, but their track record will not be assessed for scoring purposes.

All investigators must:

- Have demonstrated research experience, capability and productivity commensurate with their career level.
- Have demonstrated past experience in or future potential for a career in ovarian and/or breast cancer research.
- Agree to execute a deed undertaking to comply with the Funding Agreement entered into by the Administering Institution, if funding is granted.

The PI and at least 50% of the nominated CIs must:

- Reside in Australia (or intend to reside in Australia) throughout the funding period.
- Be an Australian citizen, have resident status or have an appropriate visa to work in Australia for the entire duration of the funding period.
- Be affiliated with an Australian Institution

Funding is **NOT offered** for the following aspects of research related costs:

1. Institutional overhead costs.
2. Tuition and professional membership dues.

Funding will be tied to the achievement of program milestones. The program milestones will be used to define a timeline for the research activities over the duration of the program. Reporting progress towards milestones will be incorporated into the annual reporting and funding for the program. Evaluation of the team's progress will be metric driven: the team will clearly define its specific goals and how it will measure progress.

Applications where the participating institution is prepared to offer a funding contribution of over 10% (preferably in cash, but also in-kind) of the grant value will be viewed favourably.

Feminist Review Trust Grants

Funding Provider Feminist Review Trust	Eligible to <div> <div>✓</div> Not-for-Profit </div> <div> <div>✓</div> Unincorporated Assoc </div> <div> <div>✓</div> Individual </div>	Funding \$30,000 (approx) Total Pool: Undisclosed
Location Aus		Rounds Closes 10 Sep 2019
Funding Type Cash Grant G09259		
Primary Category Women		

Purpose

To support feminist scholars and activities.

Overview

The Feminist Review Trust funds projects internationally which represent the diversity of women's lives globally and support the creativity which with women fight the inequalities they face.

The maximum value of any individual award is UK £15,000 (or its equivalent). However, the Trustees rarely give out awards of this amount so when you prepare your application please bear in mind that you may only be offered partial funding. It is therefore helpful if you can identify different sub-elements in your application.

The Feminist Review Trust will fund:

Hard to fund projects. Some types of projects are difficult to fund. Typically these projects have no other obvious sources of funding. This might mean, for example, that traditional academic sources are either not interested in the area or that it is an activist project or that it is too feminist for most conventional funding sources. For example the Trust supported the writing and publication of the history of Rape Crisis in Scotland and the translation and updating sections of 'Women and Their Bodies' into Arabic and Hebrew.

Pump priming activities. This means that we will provide a small amount of funding to help start an activity in the hope that it will then be able attract sufficient funding to continue. For example we funded a project in Argentina to strengthen the capacity of organisations promoting women's rights and a project to provide audio visual equipment for a feminist social centre in Madrid. In each case these projects have hopefully helped to create a sustainable activity.

Interventionist projects which support feminist values. It is often difficult for projects around core feminist concerns such as abortion rights and domestic violence to find funding. For example the Trust has supported Asylum Aid (an independent charity workshop with asylum seekers in the UK) to promote its 'Charter of Rights' for Women Seeking Asylum. We supported the 40th Anniversary Campaign of Abortion Rights in the UK, a documentary about abortion in Trinidad and Tobago and a feminist art studio in Tbilisi, Georgia.

Training and development projects: we will fund projects which provide training in relevant areas. For example, the Trust has funded English lessons for sex workers in London; leadership skills training for women in the voluntary sector. and volunteer training as Glasgow Women's Library.

One off events: we supported Cine25 as part of the celebrations of 25 years of Women's Studies at the University of York (UK); a seminar for the Lileth Project (a violence against women housing related project), and a workshop on the gender dimensions of Bulgarian Immigration Policy.

Dissemination: we will fund the production and distribution of relevant material. Too often wonderful work has had a more limited impact than it should because it was not well of fully distributed The Trust will fund dissemination. . For example we have supported the production of a booklet on Asian women's experiences of higher education in the UK and the distribution of publications by the Rights of Women (a non-profit UK group)

Core funding: we realise that many groups struggle to raise core funding. The Trustees are willing to offer core funding to cover staff costs, accommodation etc., except in instances where applicants are seeking core funding to replace funding lost as a result of public sector cuts.

Other projects: if your application does not easily fit into any of the above categories we may still support it. For example, the Trust has funded a project to capture oral histories of women's experience of the menopause. Contact the Trust to discuss eligibility prior to submitting your application.

Limitations

What will the Trust not fund?

The Feminist Review Trust will not fund the following types of applications:

- Applications from students to support them on courses of any kind. This includes sub-degree, Bachelors, Masters and Doctorates. Nor will we fund doctoral fieldwork. Very, very exceptionally we might contribute up to £500 to assist a student from a poor country.
- Applications from academics to fund work which could be funded by more traditional sources of funding. This means that we are very unlikely to fund summer projects for US academics.
- Where we do fund academics we will not fund overheads, teaching buy-outs or equivalent.
- Applications to continue doctoral studies. Post-docs can be funded from more conventional sources. Applications from religious groups.
- Applications from UK organisations for core funding that has been lost or reduced due to statutory bodies' spending cuts.

Copyright information

EasyGrants Newsletter is copyright Our Community Pty Ltd

Like many other Our Community initiatives, the Funding Centre is built around a self-sustaining social enterprise model. Our paid products and services help to subsidise the free or reduced-cost ones. We aim to reach as many groups as possible so we can make our tools as cheap as possible.

This newsletter takes a lot of time and knowledge to prepare; the grants landscape requires daily monitoring, the fundraising articles and help sheets are researched and written by experienced fundraisers and journalists.

For these reasons, copyright will be rigorously enforced.

Website Terms & Conditions

Our full terms and conditions are provided below the shaded box, but if you're short on time, here's a summary:

Key Points:

- **Availability:** We do our very best to ensure that the Funding Centre website and related services are available whenever you need them but please understand that sometimes, unavoidably, as with all services available via the internet, you may lose access for a while.
- **Data accuracy:** We take pride in ensuring our data is up to date and accurate, but you should not rely on our data alone. Please double-check everything but particularly crucial information such as closing dates. If you do spot a mistake, please let us know so we can correct it as quickly as we can.
- **Data use:** We aim to reach as many grantseekers as possible so we can make our products as cheap as possible. As such, we will rigorously enforce all our intellectual property rights:
 - Only paid-up subscribers are permitted to access the restricted areas of the website – you are allocated one password per user (up to 10 users per subscription for multi-user subscribers). You are not allowed to share your password around, not even within your own organisation.
 - Only paid-up subscribers are authorised to receive the *EasyGrants* newsletter (one user for single-user subscriptions, no more than 10 for multi-user subscriptions). Again, you are not allowed to forward on the newsletter.
 - We won't tolerate anyone scraping or sharing our data to use for any purpose other than their own grantseeking.
